

# Why we continually enhance OnBase

From our beginning in 1991, we've averaged one major and one minor release each year.

We have spent over 2 millennia of man-hours developing and enhancing OnBase.

1991 Today

With each release, we work to make sure OnBase remains relevant in your IT environment while also evolving to support industry trends - revolutionizing the way you work!

## OnBase keeps you current with your IT environment.

Upgrades are a fact of life. Through the life of your solution you will upgrade your operating systems, your other applications and your browsers. You can be confident OnBase will keep pace with your environment.

Operating Systems:

every version of Windows OS, starting with 3.0\*

\*and Linux and Unix based server OS

Applications:

every version of Microsoft Office®, beginning with 3.0

integrates with almost every application

Browsers:

OnBase supports the most popular browsers.

Internet Explorer

Safari

Firefox

Google Chrome\*

\*limited support

## OnBase helps you stay ahead of technology trends.

Technology continues to evolve. Innovations in OnBase allow your organization to take advantage of significant innovations in technology. Here are a few examples:

2000

OnBase debuts as the first cloud-based content management product. Today, this is the most mature cloud solution on the market.

2004

OnBase introduced "Case Management" capabilities in 2004. Today OnBase is recognized as one of the most significant case management vendors\*.

\*OnBase is named in the Gartner Magic Quadrant for BPM-Platform Based Case Management Frameworks and the Forrester Wave™: Dynamic Case Management, Q1 2014

2009

We introduced the first mobile client (Blackberry). Today, we support all major mobile platforms.

## OnBase empowers you to innovate in your industry.
